Job Mentor Program

Office: (505) 767-5898

cabq.gov/family/crei/jobs-internships

JMP at Sandia offers work experiences supported by a student-developed portfolio through which students explore personal and career interests, aptitudes and abilities, personal management of time, health and finances.

The necessary components of a productive and successful career are examined: technical knowledge, responsible and ethical behavior, and goal setting. Literacy strategies are also integrated throughout the course.
